**About
Us**

We go beyond product supply to deliver real value across your entire food operation.

Decades of industry experience, a reliable supply chain, and an uncompromising approach to quality that is built to support food businesses that can't afford to compromise.

From sourcing to processing and distribution, we work the way serious food businesses need us to.

Global Network, Local Execution

On-ground expertise in key markets ensures faster, more reliable operations.

Consistent Quality, Every Time

Strict quality control and compliance systems maintain stability across all products.

Seamless Supply Chain

From sourcing to production and fulfillment, every step is managed to reduce friction and save time.

Value-Driven Operations

Efficient systems allow competitive pricing without compromising product integrity.

Milestones in our journey

A team of industry experts that are committed to...

Integrity

We believe that good relationships are built on trust, and we attribute our extensive network and positive reputation to our commitment to integrity at all levels of our business.

Reliability

Standing by our clients' and partners' side and acting in their best interest is a fundamental element of our fabric. We stay true to our word, and when we promise, we deliver.

Consistency

We understand how important it is for food business to offer consistent quality to their customers and we maintain the quality of our products and services under all circumstances.

Innovation

Small changes and subtle adjustments can yield massive results, and we know that from practice. We have always taken it upon ourselves to present innovative products and ideas to the market by identifying trends and seizing opportunities.

A Controlled Food Production System, Built for Consistency

Every product that leaves our facility is the result of a controlled system, not a variable process.

From sourcing to processing to delivery, we remove uncertainty so your operation runs the same way, every day.

Production Capabilities

Six production facilities across meat, chocolate spreads, bake mixes, frozen and pickled vegetables, supporting the consistent supply of quality food products at scale.

- Multi-temperature production and storage
- Dedicated processing lines
- Portion-controlled production systems
- Integrated quality assurance checkpoints

Each stage is monitored, and all outputs are traceable within the system.

Operational Performance

- **Consistency:** Uniform quality across batches, formats, and channels, so your output stays stable.
- **Efficiency:** Streamlined production and logistics systems, so your operations move faster.
- **Reliability:** Structured processes and controlled supply, so you can plan with confidence.
- **Cost Control:** Optimized production and reduced waste, so you maintain margins without compromise.

MOOMOO'S
QUALITY MEATS
FOR EVERY DAY

The logo for Moomoo's features the brand name in a bold, black, sans-serif font. Below it, the tagline "QUALITY MEATS FOR EVERY DAY" is written in a smaller, red, sans-serif font.

Frozen Protein Solutions

Moomoo's

Portioned, formed, and marinated protein solutions across beef, veal, lamb, mutton, and chicken. Available in retail packs, butcher counter formats, and foodservice supply with full traceability from sourcing to final dispatch.

MONTALIS
Authentic Mediterranean Foods

The logo for Montalis features a stylized green leaf and a yellow sun above a blue wave. To the right, the brand name "MONTALIS" is in a bold, blue, sans-serif font, with the tagline "Authentic Mediterranean Foods" in a smaller, blue, sans-serif font below it.

Mediterranean Ingredients & IQF Produce

Montalis

IQF fruits and vegetables, preserved olives, peppers, and Mediterranean pantry essentials. Sourced, processed, and packed to deliver consistent quality and reliable kitchen performance across retail and foodservice channels.

cocoamore

The logo for Cocoamore features the brand name in a bold, black, sans-serif font. The letter "a" is stylized with a red underline.

Chocolate & Confectionery Systems

Cocoamore

Couverture chocolate, flavored spreads, dessert toppings, and pastry applications for bakeries, pastry kitchens, dessert production, and retail formats. Designed for smooth texture, balanced sweetness, stable performance, and repeatable results at scale.

bakeasy
baking made easy

The logo for Bakeasy features a stylized orange and yellow "h" shape. To the right, the brand name "bakeasy" is in a bold, blue, sans-serif font, with the tagline "baking made easy" in a smaller, blue, sans-serif font below it.

Bakery Premix Solutions

Bakeasy

Dry premixes for sponge cakes, muffins, and core bakery applications. Developed to reduce production variability, improve operational efficiency, and deliver consistent baking results across professional bakery environments.

nuestra

The logo for Nuestra features a stylized red and white icon of a fruit or vegetable. To the right, the brand name "nuestra" is in a bold, red, serif font.

Fruit Fillings, Purees & IQF Inputs

Nuestra

Ready-to-use fruit fillings, purees, and IQF fruit solutions for pastry production, bakery lines, dessert applications, and beverage systems. Built for controlled flavor, stable texture, and reliable performance in high-volume operations.

House of **crea** creative cream creations

The logo for House of Crea features the words "House of" in a small, blue, sans-serif font, followed by "crea" in a large, blue, cursive font. To the right, the tagline "creative cream creations" is written in a smaller, blue, sans-serif font.

Cream & Dairy Solutions

House of Crea

Whipping cream, multipurpose cream, and dairy application systems developed for cooking, sauces, pastry, and dessert preparation. Formulated for stability, consistency, and dependable performance across professional kitchens and production lines.

MOOMOO'S

QUALITY MEATS
FOR EVERY DAY

Quality meat, made accessible.

Moomoo's is built on a straightforward belief: good protein should be within reach, for the restaurant sourcing at scale, and the kitchen cooking for one. Backed by Emkay Foods' sourcing infrastructure, we bring consistent, well-handled meat to both foodservice and retail — without the complexity that usually comes with it.

Moomoo's was built on a straightforward belief: good protein should be within reach - for the restaurant sourcing at scale, and the kitchen cooking for one. Backed by Emkay Foods' sourcing infrastructure, we bring consistent, well-handled meat to both foodservice and retail, without the complexity that usually comes with it. From whole cuts to ready-to-cook formats, across beef, lamb, and chicken — the same care in sourcing carries through to every product we supply.

Made for the way kitchens work

Our foodservice range is built around yield, prep speed, and consistency — with formats that reduce variation and let kitchens focus on the food, not the prep.

Clear choices, dependable results

Our retail range is built for convenience and confidence — practical pack formats, familiar cuts, and reliable cooking outcomes that make it easy for shoppers to choose and cook well.

Portioning

Whole muscles cut into exact weight bands, including cubes, strips, escalope, and portioned formats, shaped to fit your kitchen or your shelf.

Forming

Burgers, kofta, sausages, and mince formats produced with consistent size, weight, and composition — so every plate looks and performs the same.

Ready-to-Cook

Marinated, breaded, seasoned, stuffed, and prepared formats that cut prep time and take the guesswork out of service.

Packing

Foodservice bulk, retail packs, repacking, and custom formats built around your route to market and how your customers buy.

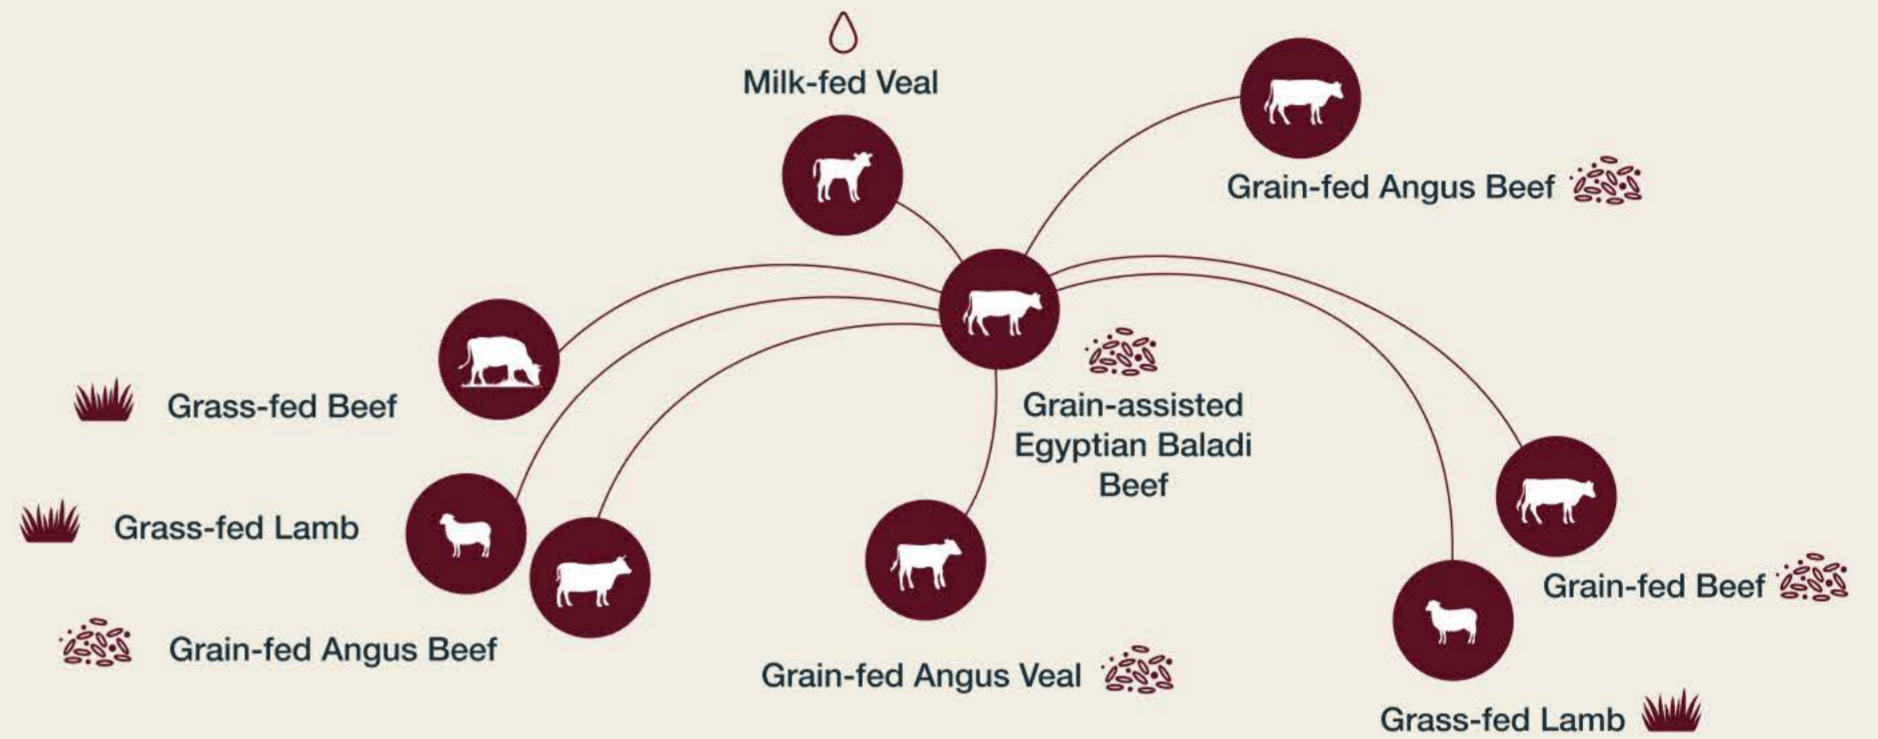

SPECIALTY MEATS → PORTIONED TO SPEC → FOR RETAIL MARKETS → AND FOODSERVICE OPERATORS

MOOMOO'S

QUALITY MEATS FOR EVERY DAY

Backed by our global sourcing arm, Moomoo's delivers custom solutions across a wide range of categories.

Protein Range

Veal

Light, kitchen-ready cuts suited to quick home cooking. Escalope at 600g, alongside piccata, stroganoff, and meat cubes at 450g.

Young Beef

Our everyday beef, reliable and versatile. Steaks, essentials, and quick-prep formats mostly in 330g to 600g, with whole cuts from 1 kg to 3 kg.

Beef

Baladi, Grass-Fed, and Marbled options for shoppers looking for value, character, or something more premium. Cubes, steaks, burgers, sausages, roasts, and whole cuts.

Lamb

Australian lamb and mutton for roasting and occasion meals. Shank, leg, racks, and roast cuts in 450g to around 2.5 kg formats.

Chicken

Ready-to-cook chicken for everyday household needs — breaded, seasoned, stuffed, and shawerma-style, mostly in 500g to 600g packs.

MILK-FED Veal	GRAIN-FED Young Beef	GRASS-FED Beef	GRAIN-ASSISTED Beef	GRAIN-FED Beef
---------------	----------------------	----------------	---------------------	----------------

Light pink & very tender. Cooks fast. Gentle, delicate taste.	Rich pink & tender. Easy to cook evenly. Mild, versatile flavour.	Naturally lean. Light and wholesome. Ideal for low-fat meals.	Juicy & tender. Easy to cook. Balanced taste.	Richly marbled. Stays juicy when cooked. Full-bodied flavour.
---	---	---	---	---

Production Standard

COLD-CHAIN INTEGRITY

Product condition is maintained from the moment it leaves processing through to delivery.

TRACEABLE SOURCING

Origin stays visible across the supply chain, a clear record you can share with your own buyers.

CONSISTENT PORTIONS

Weight, ratio, and cut dimensions are held to spec, so your margins and your plates stay predictable.

FLEXIBLE FORMATS

We adjust cuts, portions, marinades, and pack sizes to fit your operation — whether foodservice, retail, or both.
